PLUMBERS WARNED BY THE CITY

The city board of commissioners, as a committee of the whole, reported last evening that they had no place where hitching posts can be arranged for teams from Hooper, but that they would gladly provide a watering place for the teams at Twenty-fourth street and Lincoln avenue. The commissioners suggested that some enterprising citizen should take it upon himself to provide a hitching place for the teams.

Action on the ordinance providing for the opening of Porter avenue, between Thirtieth and Thirty-first streets, was deferred until a later date, and the matter was turned over to Superintendent J. C. Nye of the street department. Mr. Nye is of the opinion that the first payments for the opening of the street should be made in thirty days and the second in one year, rather than in four settlements, as provided for in the ordinance in its present form.

Bids for the building of sidewalk on the south side of Twentieth street were referred to the committee of the whole for consideration. City Surveyor H. J. Craven, in a written communication to the board, stated that the J. P. O'Neill construction company was the lowest bidder and that the contract should be awarded to them.

A franchise for the building of a spur track on Pacific avenue, was given the Union Pacific company and an ordinance providing for the track was passed.

Pay Rolls

The following payrolls and claims were allowed and the auditor instructed to draw warrants for the several amounts:

Waterworks department	\$ 428.85
Sanitary department	80.50
Cemetery	392.50
Engineering department	870.25
Street sprinkling	672.50
Street labor	1,415.58
Police	107.00
Taxes	61.80
Total	\$4,688.78

New Fund Created

On the recommendation of the city treasurer, a special fund was created for the payment of time-checks when they are presented. The fund will carry a reserve supply of money in the sum of \$200.

The report of the oil inspector, Thomas Lundy, was placed on file.

Street Supervisor L. B. Balch reported that during last month he expended \$2,784.25 on the repaving and grading of streets, the work having been done in the different wards of the city. The supervisor also stated that the money expended last year in the same month amounted to \$633.44 more than this year.

Sexton's Report

The city sexton's report of receipts for April and May showed the following amounts:

April	\$572.69
May	447.50

Porter Avenue

The matter of establishing water-mains and sewer connections on Porter avenue was referred to the superintendent of streets, J. C. Nye. The engineer reported that 35 per cent of the property on the avenue had been pledged to the improvement.

The plumbers of the city, through a resolution passed by the board, were advised that unless they do better work in "filling in" after they have opened trenches on the streets, they will not be permitted to operate in the city. The recorder was authorized to send each of the plumbers of the city a copy of the resolution.

Trees Obstruct the View.
A complaint against trees that obstruct the view in the business district on Washington avenue, near Twenty-sixth street, was referred to Commissioner Nye and he was authorized to take the matter up with the city park commission.

To the department of public safety, was referred the matter of sanitation on Royal avenue and Twenty-second street.

The report of Clerk I. N. Fulton of the municipal court, that he had collected in fines and forfeitures last month, the sum of \$1,348.80, was laid on the table, awaiting the report of the city treasurer.

James Crosby renewed his petition for damages for the crippling of a horse, asking the city for \$50. The matter was referred to the city attorney who will confer with the attorney for the Union Pacific railroad company with a view to having the company settle with Mr. Crosby. The injury was brought about through the overflow of water from the mains of the railroad company on upper Twenty-fifth street. Crosby says the horse is crippled for life and that he has already been deprived of the use of the animal three weeks.

LOSES LIFE GETTING BUCKET OF WATER

Portola, Cal., June 4.—H. P. Martin was killed by gases last Saturday in the Chilcoot tunnel on the Western Pacific railway. The tunnel has been on fire for several days. Agent Morton of Rainbow, the station at the east of the tunnel, went in and dragged out Martin's body. He inhaled so much of the fumes that he was rendered unconscious and was hurried to a lower altitude in the hope of saving his life.

Martin ventured into the long cut at the east end of the tunnel to get a bucket of water from a spring for men working on the "shoo-fly" track. He knew his danger and before starting

ing told Agent Morton the names of relatives whom he wanted notified if he failed to come back.

San Francisco, June 4.—Officials of the Western Pacific Railway company here announced yesterday that the shoo-fly track, built to carry trains around the burned Chilcoot tunnel, had been completed and that trains would be run over it today.

SALT LAKE

CALLS LIFE FAILURE AND TAKES POISON

Salt Lake, June 4.—For reasons only obscurely hinted at in his farewell messages, Maurice Burke, aged 32 years, a cattle buyer from Sugar City, Ida., formerly of Salt Lake, killed himself at the Cullen hotel yesterday morning by swallowing carbolic acid.

A woman, financial trouble and a general discontent with life are mentioned in Burke's last correspondence. "With me dead, it will be better for all concerned," he wrote in a letter to his brother, William Burke of the Burke Commission company at Portland, Or. "My life has been a failure all the way. Tell them to forget me. There is no one to blame but myself."

Another letter was addressed to Mrs. Chris Armstrong of Pocatello, Ida., whom he mentions in the first letter as the object of his love. The letter to Mrs. Armstrong, a widow, was not opened by the coroner and will be forwarded to her in private.

A maid heard Burke's screams of mortal agony just after 8 o'clock yesterday morning. She hurried to the room and found him writhing on the floor. A bottle of carbolic acid lay overturned on the floor and in his hand Burke held a tablespoon.

Dr. P. B. Steele, house physician, was summoned at once, but his efforts were unavailing. Burke dying a few minutes after the physician arrived. He had taken only one tablespoonful of the poison.

On the washstand in the room was found the two sealed letters and an open note addressed to the Cullen hotel. The latter read:

"Please mail these two letters without being opened, as they contain nothing but an announcement of what I have done. Write to the Burke commission company and they will pay my hotel bill, as I can't."

Coroner H. S. Harper took charge of the letters, opening the one to the dead man's brother. It contained the following:

"Dear Bill and Family—I suppose when you read this note you will have heard what has happened to me. But don't feel bad about me. Tell them all to forget me, as my life has been a failure all the way, but no one is to blame but myself."

"You know as well as I do how worthless I have been. Tell them all to forgive me, for with me dead it will be better for all concerned."

A portion of the letter is given over to the vindication of a woman, whom he does not name, residing at Pocatello, Idaho. Burke denies that the woman was at all responsible for his failure in life, declares that he loved her truly and that she has given him much encouragement and financial aid.

According to the coroner, this is Mrs. Armstrong, to whom the other letter is addressed.

SWEDES CELEBRATE AS IN NATIVE LAND

Salt Lake, June 4.—Typical of the festivities incident to their lives in the "old country," about 100 members of the Swedish Brotherhood of America, their wives, children and friends gathered last night in Eagles hall to celebrate the tenth anniversary of the founding of the order in Salt Lake City. One who spoke only English might have been puzzled to interpret the program, but that all present thoroughly enjoyed the occasion was clearly manifest. Many of the prominent Swedish citizens were present and the spirit of hospitality and good will ruled during the evening, even into the early hours of the morning. At the conclusion of the formal program the celebrants enjoyed a bounteous luncheon, the menu of which was suggestive of olden days in their homeland.

BOY SCOUTS WILL FOLLOW OLD TRAIL

Salt Lake, Jan. 4.—The arrival of the pioneers in Salt Lake valley, July 24, 1847, will be celebrated on the same date this year, by the boy scouts organization of the Mutual Improvement association. The boys plan to start in a company of about 100 from the mouth of Echo canyon on July 21 and make the "bike" foot to this city over the famous trail followed by the pioneers. The scouts will be accompanied by members of the first presidency of the Mormon church and other church officials, including the general board of the M. I. A. It is the first event of the sort ever carried out under the auspices of the Mormon church and it is planned to make the march an annual event.

MINING NEWS

GIROUX ORES PASS THROUGH BIG MILL

On June 1, at the Steptoe concentrating plant of the Nevada Consolidated company, the first Giroux ores began passing through the section that has been set aside for the exclusive treatment of this copper rock. On the same day, reports from the Elko camp assert, the Giroux management began sending over to the concentrator the minimum daily tonnage agreed upon, 1000 tons, and the prospects are that the Giroux from now on will meet with no trouble in fulfilling its part of the contract.

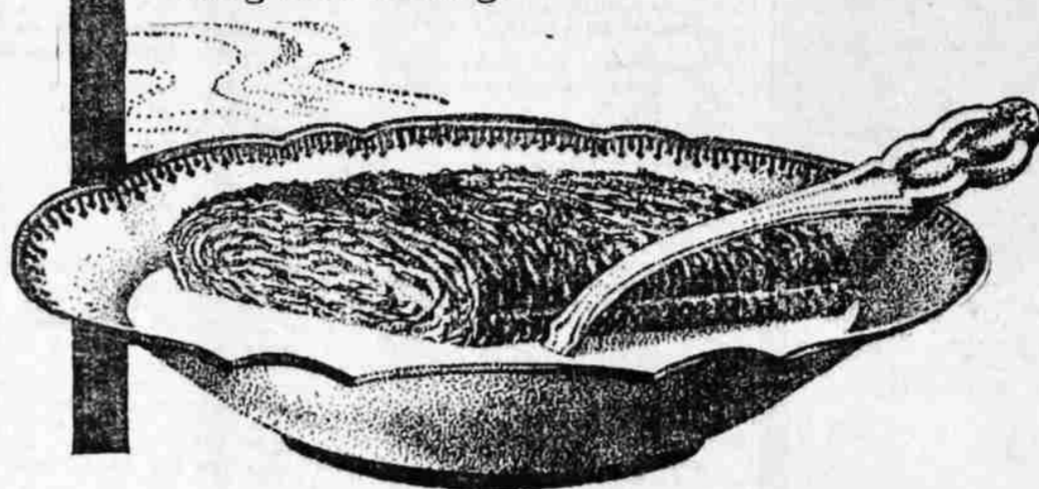

For a month or so the Giroux has been shipping to the concentrator, the daily tonnage being increased steadily, so that on June 1 there were not less than 5000 tons of the ore awaiting treatment. The Giroux, therefore, is now to be classified among the producing copper propositions of Nevada, and with the copper near 17 cents a pound the stockholders will agree that the beginning of operations

The One Perfect Food

The whole wheat grain is the one perfect, complete food given to man. This is affirmed by dietetic experience. It contains all the chemical elements that are found in the human body and in about the same proportion. As it is a complete, perfect food, why mix it with other grains? Nothing could be purer, more wholesome or more nutritious than

Shredded Wheat Biscuit

It is the whole wheat, nothing added, nothing taken away—no yeast, no baking powder, no grease and no chemicals of any kind—just pure whole wheat made digestible by steam-cooking, shredding and baking.

For breakfast heat the Biscuit in the oven a few moments to restore crispness; then pour hot milk over it and salt or sweeten to suit the taste. It is delicious for any meal with stewed prunes, baked apples, sliced pineapple, berries or other fruits. At your grocer's.
